Hi -- we are working on getting permission from the IG/AG's office to pull the power supply. I will let you know when we can get in there.

Thanks.

Hi Nancy,

I installed Boston's Laser into our FTIR, but it still reports Laser Failed. According to manual I think I should have also replaced laser's power supply too. If any body is headed to the Jamaica Plain Lab could you have them pull the laser power supply and I will pick it up. I will send pictures and instructions if necessary.

Thank you,
Have a Happy New Year.
